

CESSNA CITATION SOVEREIGN

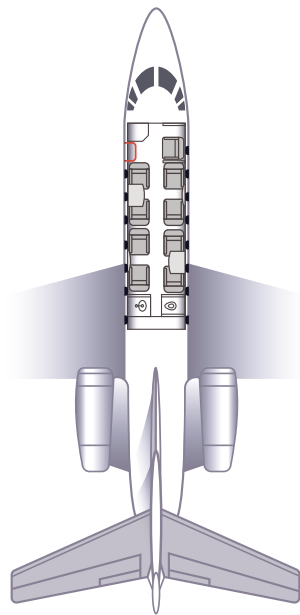

BUILT FOR COMFORT AND FLEXIBILITY

The Cessna Citation Sovereign is a Super Mid-Sized aircraft with advanced aerodynamics and superior fuel efficiency, and is an environmentally sound aircraft with low noise levels and emissions.

The aircraft can cruise at Mach 0.80 for almost 2,700 nm (5,000 km). Thanks to its exceptional runway performance, needing only 3,600 feet of runway, the aircraft can use smaller landing strips that are inaccessible to other jets. Our Cessna Citation Sovereign is approved to operate steep approaches, making London City Airport and several of the more extreme Alpine airports available to our customers.

The Sovereign offers one of the largest double-club cabins available in its class, allowing passengers to stand and walk around during the flight. The closet located in the rear toilet provides space to stow several full-size garment bags, coats and brief cases.

We guarantee our clients absolute personal discretion, reliability and flexibility – all delivered with you in mind.
